

## Engineering the Bioenergy Business Opportunity (EBEBO)

A business diversification and development group for companies and individuals in the Staffordshire and Stoke-on-Trent area

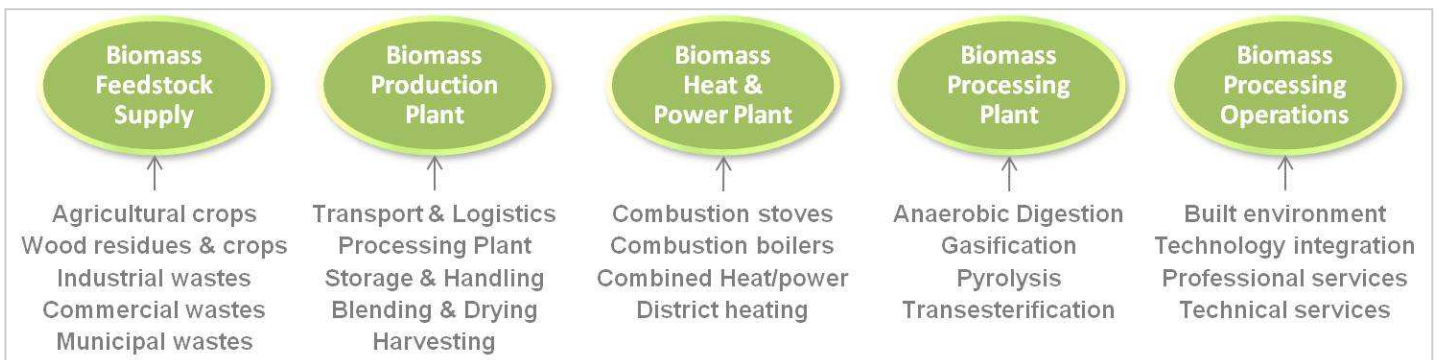

The emerging UK bioenergy market offers diverse business opportunities for a wide range of engineering, manufacturing and technical/professional services companies in the West Midlands. The Staffordshire and Stoke-on-Trent Special Interest Group is an information, networking and business development group for companies and individuals seeking to diversify or expand activity in this new market.

The EBEBO SIGs provide a local response to a National business opportunity in the emerging low carbon energy generation market by:

- ✓ protecting and enhancing skills and jobs
- ✓ supporting existing and emerging businesses
- ✓ supporting growth and diversification
- ✓ protecting important supply chains.

The EBEBO SIG will be of value to a wide range of companies and individuals in the Staffordshire/Stoke-on-Trent region wishing to explore and develop business opportunities in the growing bio-energy markets:

Please register your interest in joining the EBEBO Special Interest Group with the RESCO team:
